DOCTORS' SPEAK

Dr. Murthy Gokula

MD, CMD. Fellowship in Geriatrics (University of Michigan)
Indo American Telemedicine Corporation, USA

“ We are a physician owned company established in USA with a mission to digitize primary care in rural India. While researching we read an article in the Washington Post and became one of the first customers of HealthCube. HealthCube is one instrument that combines many needed tests for rapid diagnosis at point of care improving primary care. It is unique and can transform primary health care both in the United States where we practice medicine, and in Andhra and Telangana where we run telemedicine projects. ”

Dr. V. S. Natarajan

Padmashri Awardee
MD, FRCP (Edin.), D.Sc (Hon)
Chennai, India

“ The HealthCube device is very innovative and provides doctor and patient convenience by being an all-in-one device. It is ideal for all clinics and hospitals. ”

Dr. N. J. S. Saggi

Occupational Health Specialist
Mumbai, India

“ This is to share the feedback regarding the HealthCubed device HC XL. I have been using this device since November 2018. I chose this product because of multiple tests available on the same platform for screening and Primary & Preventive Healthcare check-up. The report is generated immediately and the performance of the product has been very good. The support provided by the company personnel has been exemplary. ”
